

Transmission and Power Steering Flush (TPSF)

Nulon Transmission and Power Steering Flush is a fast-acting formulation designed to break down and remove harmful contaminants from hoses and metal surfaces that have built up over time, without softening seals or gaskets. Suitable for use in all transmission and power steering systems, the unique formulation reduces noise and helps to restore original performance.

BENEFITS

- Removes sludge, dirt, grime and varnish
- Removes water contamination and condensation
- Protects seals, hoses and gaskets
- Improves steering response
- Conditions and revitalises seals and components
- Extends transmission and power steering life
- Suitable for automatic and manual transmissions

Directions for use

Add one bottle to the transmission. Power steering units may require some fluid to first be drained from reservoir, otherwise add one third of a bottle. Operate vehicle by driving for 10-15 minutes. Drain fluid and refill with the appropriate transmission or power steering fluid.

First Aid

SAFETY: Combustible liquid. May be fatal if swallowed and enters airways. Use personal protective equipment as required. Keep away from heat/sparks/open flames/hot surfaces. No smoking. Store locked up. **IF SWALLOWED:** Immediately call a POISON CENTER/doctor. Do NOT induce vomiting. For advice, contact a Poisons Information Centre (e.g. phone Australia 13 11 26; New Zealand 0800 764 766) or a doctor (at once).

ENVIRONMENT: Harmful to aquatic life with long lasting effects. Avoid release to the environment. Dispose of contents/container in accordance with local regulations.

Pack Sizes

Part No: TPSF
300 ml - 6 Per Carton
