

Pro-Strength White Lithium Grease (LMG)

Nulon Pro-Strength White Lithium Grease is a high viscosity, fast acting lubricant providing long term protection against rust, corrosion and oxidation. It provides superior performance in all temperature and weather conditions.

Recommended for use in cams, pistons, bearings, guide rails, hinges, open gears, chains, slide conveyors and more, it is ideal in automotive, aviation, commercial, construction, earthmoving, farming, industrial, mining and transport applications.

Benefits:

- Protective lubrication
- Heat & moisture resistant
- Long lasting durability
- Versatile, multi-purpose application

Pack Sizes

Part No: LMG300
300g can - 6 Per Carton
